Introduction 1

Navigating the Book 9

Kama – The Engineering Aspects of AI: Building Minds from Code 13

1. Artificial Intelligence Genesis: So, God created man in His Image 15
2. Machine Learning and Algorithms: I am a machine programmed to think and learn 27
3. Model-Driven Vs Data-Driven AI: In God We Trust, all others Bring Data. 35
4. Large Language Models: Training on a Trillion Words 41
5. Generative AI: Democratized Access to Sophisticated Computation 49
6. Governance & Compliance: Beware; for I am Fearless and therefore Powerful. 55
7. AI Adoption & Implementation: The Only Way to Predict the Future is to Create it. 67

Artha – The Transformative Aspects of AI: From Robot to Revolution 77

8. AI Disruption: The Path of Least Resistance is Rarely the Path of Most Progress 79
9. Changing Nature of Work: Reclaim Our Humanity 83
10. Jobs and Skills: Every Individual has an Opportunity to Thrive 89
11. Making an Intelligent Enterprise: Good at Existing Business, Bad at Competing for Disruption. 101
12. Leadership in the age of AI: Runtime that will Shape all that we Do 115
13. Decision-Making: Life is a Sum of all your Choices 123
14. Knowledge Management & Innovation: Intelligence is Not Knowledge but Imagination 131
15. Case Studies of Industry Disruption: The 21st Century all about Surprises. 141

Dharma – The Ethical & Moral Aspects of AI:
Navigating the Maze of Machine Morality 173

16. Ethics & Morals: Everything's got a Moral, if only you can find it. 177
17. Algorithmic Biases: Possessing Bias is Part and Parcel of Being Human 191
18. The Law and AI: Injustice Anywhere is a Threat to Justice Everywhere 201
19. Changing Epochs & Sustainability: The Holocene has Ended: The Garden of Eden is No More 217
20. Persuasive Technology & Attention Economy: No Hard Feelings 225
21. Being Human in an AI World: Everything Affects Everything Else 231

Moksha – The Societal Aspects of AI: Beyond the Turing Test 245

22. Humans and Robots: So, Receive me Brother with Your Faithless Kiss 247
23. The Promise of Tomorrow: Technology isn't Destiny 259
24. Questions from Science Fiction: The Rise of the Machines 265
25. AI and Humanity: This is Water 271

Bibliography: Standing on the Shoulders of Giants 277
Author's Bio 293
